

# PALADIN

## DATA CORPORATION

We Make Stores Run Better.

### POWERFUL POS WITHOUT BREAKING A SWEAT... OR THE BANK.

You're in the market for POS software, so you already know how it will help you provide better customer service, streamline checkout services and enable IAS and PCI Compliances.

### PUT PALADIN'S POS TO WORK FOR YOUR BUSINESS.

Paladin's POS system is easy to install and use because it's built for your business with your vendor's catalog and pricing pre-loaded. Paladin's software works with your accounting and pharmacy systems to keep everything in-sync and up-to-date.

And we handle all the technical support. Personalized training and demos are available online and concierge service is available on-site.

Pricing is simple. You only pay for the software you need and use. Paladin allows you to choose the pricing program that fits your budget.

Online Demos available at [www.paladinpos.com](http://www.paladinpos.com).  
Or call to schedule a live, remote demonstration of our system's full capabilities.

**IF THIS SOUNDS SIMPLE, THAT'S GOOD.  
IT'S THE WHOLE POINT.**

## Is your Pharmacy struggling with...

losing customers to the competition because you can't provide the customer service features they request?

accepting FSA, HRA & HSA cards?

losing money due to out-of-date item pricing?

managing and tracking stop-meth program including Pseudoephedrine purchases.

keeping your house account customers current on payments?

finding the time to invest in monthly statement generation and maintenance?

getting your daily chores completed with reduced staffing?

current POS System is costing you too much monthly?

integration with your Pharmacy System?

not getting a reasonable Return on Investment (ROI) out of your current POS System?

[then Paladin POS is the right solution for you]
